

**Broadstone Hall Primary School**  
**Year 4 Multiplication Check 2022 Meeting**  
**Monday 24<sup>th</sup> January 2022 @ 6pm or Monday 31<sup>st</sup> January 2022 @ 9am**

Dear Parents/Carers,

As you may be aware, there will be a new statutory multiplication tables check for the current Year 4 children. This check will take place in June 2022.

This multiplication tables check has been designed to help ensure that the children in Year 4 know all their tables up to 12, off by heart and out of order. As well as being crucial for everyday life, knowledge of multiplication tables helps children to solve problems quickly and flexibly, and allows them to tackle more complex mathematics later in primary school and then in secondary school.

Your child will have a tables target set by their teacher. Each week they will be tested on this target. When their teacher feels confident that they are secure and know that table, they will move on. Once they know all their tables individually, they will be set the target of answering questions, which involve all the tables, mixed and out of order eg 3x6 5x9 7x8

It is important that they are fluent and accurate with the table facts in order for them to achieve the best they can.

We would like to be able to explain this further at the above meeting. Please indicate your preferred attendance below.

Sandy Holt

Assistant Headteacher.
