

Our Core Values

Resilient, independent, co-operative, confident and kind learners

Year 6 Summer

Our Motto

Have the Courage to Succeed

The Year 6s have an exciting curriculum planned for them this half term.

Music

As musicians, the children in 6CM will learn how to play ukulele with a specialist teacher from Stockport Music Service. Children in 6ZW and 6JL will continue playing songs on the glockenspiel linked to the 'You've Got a Friend' theme.

D.T.

As designers, the children in year 6 will be researching seasonal food and its importance when creating menus. Children will work in groups to design a meal for a specific user using seasonal ingredients.

Science

As scientists, we will study the key concepts of evolution and inheritance by building upon previous topics, including animal characteristics and fossils. We will learn about inherited traits and apply this knowledge to various animals and plants, before being introduced to the work of Mary Anning and Charles Darwin.

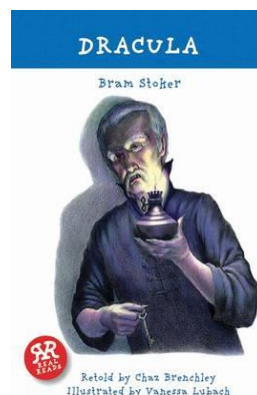

Geography

As geographers, we will study the features of rivers, focusing on the River Mersey. We will complete fieldwork to look for evidence of the different stages of rivers in our locality, alongside erosion and deposition.

English

As writers, we will be reading the classic horror story Dracula and exploring how to create an eerie atmosphere in a setting description and how to write a more formal report.

P.E

In PE, we will learn the skills and rules associated with striking and fielding games.

Computing

As computer scientists, we will be continuing our work on blogging before moving on to microbits. In our microbits topic, we will design, write and debug programs that accomplish specific goals; use sequence, selection, and repetition in programs and use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs

French

As linguists, we will listen to and read longer texts in French, decoding them by recognising cognates and already familiar words and working out the gist of a text.

R.E

In RE, we will explore what kind of king Jesus is to Christians and how his parables demonstrate different meanings and teachings.

Mathematics

As mathematicians, we will revise key concepts before our SATs, particularly linked to the four operations of number and fractions. Following the SATs, we will revise how to read coordinates, and how to translate and reflect shapes. Children will revise and become confident with telling the time including how to read travel timetables.

Personal, Social & Health Education.

In PSHE, following on from our visit to Crucial Crew, we will understand the dangers and learn how to be safe around bodies of water.

Enrichment & special Events:

Monday 12th-Friday 16th May: SATs Week

Friday 16th May: SATs celebration day

Tuesday 20st May: KS2 Sports Day

Thursday 3rd July: High School Transition Day

Relentless Routines.

PE:

Friday: 6JL, 6CM, 6ZW

Homework set on Monday and returned the following Monday.

Please encourage your child to read independently for 30 minutes every night. Reading records can be brought into school on any day, but please sign them once a week.
