

Stockport Schools Relational Round Up

Welcome to May 1 of our Relational Round Up for Stockport Schools.

These weekly newsletters are here to offer a regular well-being top tip for families and share good stories from our schools across Stockport during our current new ways of living.

Whilst we are living though these unprecedented times, with much negative news leaving us wondering what is going to happen next, it can be difficult to stay positive and we can feel as if we have no control over what our future holds. Here are some **top tips** to help ourselves stay hopeful and in touch with our best selves.

Be mindful where your energy and focus goes.

It can be easy to get drawn into lots of discussions, wondering around when we may be returning to school, allowed to start visiting our older relatives or when we can next go to the cinema.

Our brains will instinctively encourage us to try and plan for what might be, so we can be prepared. However, the possible outcomes are infinite and we have little control over how many of these bigger decisions will look.

It is healthier for us to focus more on the things we can control and influence.

When you find yourself caught spending time worrying or fretting about these bigger issues, try to connect with something you can directly do something about, or that you can achieve with the support of others.

Here are some activities to help ourselves stay hopeful and in touch with our best selves.
